

2014 “5th Annual” NOAA EDM Workshop

*Welcome, Introductions and Overview
Of Workshop Schedule and Logistics*

Jeff de La Beaujardière, NOAA Data Management Architect
and 2014 EDM Workshop Chair

September 9 to 11, 2014

- NOAA's SSMC Campus is a secure government facility
 - Most Workshop sessions take place in the NOAA Auditorium and Science Center, SSMC-4
 - NOAA personnel need to present their NOAA badge
 - Non-NOAA attendees must do TWO things:
 - Non-NOAA attendees must present a current, state-issued drivers license or a valid US Passport
 - Non-NOAA attendees must be signed into the building by a NOAA employee
 - Either Matin Yapur or Matt Austin (both NOAA employees) will sign in our Non-NOAA guests.
 - Please arrive as early as **20 minutes before** the start of your session, or as late as **20 minutes after** the start of your session, if you need to be signed into the building.

- Lavatories are located in the rear of the NOAA Science Center.
- Walk across the lobby, into the Science Center and down the stair.
- Walk straight forward, and as you leave the Science Center, turn to your right. There is a sign to guide you.

The NOAA EDM Workshop has a low-bandwidth wifi coverage for the NOAA Auditorium and Science Center. We invite you to log on at your convenience, but ask that you refrain from all high-bandwidth internet activities, such as:

- Streaming of video (even low resolution)
- Streaming of music
- Any kind of peer-to-peer file sharing client (such as BitTorrent), which are sometimes configured to run in the background (please be sure to shut off them off completely)
- Any content inappropriate for a Government-operated network

Here is the wifi network name and password:

- Wifi network name (SSID): **2014edmw**
- Wifi network password: **2014edmw**

The 2014 EDM Workshop is proud to offer you your Workshop Materials Online.

May be accessed on your desktop, laptop, tablet or smart phone.

Depending on your browser settings, you may need to “click through” an SSL security exception. But don’t worry – our servers are secure.

The header is a button...

NOAA 2014 EDM Workshop

Your Workshop Materials Online

- Clicking the header on any page will take you back to the top page of the Workshop Materials Online interface.
- Some buttons lead to an Adobe pdf file. Depending on your browser settings, such a page may display, or it may download. You can change these settings to suit your tastes.
- Some buttons lead to a GoogleDoc on NOAA's GoogleDrive. If you have a noaa.gov gmail account, you may be prompted to login in order to proceed
- If you don't see the header, simply press the "back" arrow on your browser to back out of the page you are currently on.

Top row buttons...

**Purpose, Goals
& Outcomes**

An overview of the Workshop purpose and objectives.

Recognition of the people who helped put the Workshop together.

**Schedule
At-a-Glance**

The Workshop schedule on one page, including all times and locations, and a brief summary of our breakout sessions.

**NOAA SSMC
Campus Map**

To help you find your way around NOAA's SSMC Silver Spring Campus, including breakout sessions in Building 2 (SSMC-2).

Row 2 buttons...

**Wifi Network
and Twitter**

Review of network name and password, usage rules and Twitter hashtag.

**Remote
Attendance**

Instructions on how to attend sessions remotely.
Remote attendance is provided by way of WebEx, and is for “listening in” only.

**NOAA SSMC on
GoogleMaps**

Day-by-Day buttons...

Day 1
Tuesday, Sept 9

Day 2
Wednesday, Sept 10

Day 3
Thursday, Sept 11

With the Day-by-Day buttons, you can drill down to the Breakout Session Profiles, Collaboration documents and Listen-in instructions for each session.

We'll take a closer look at these in a moment...

Plenary Speaker buttons...

Workshop Chair Jeff de La Beaujardière	TPIO
Opening Keynote Peter Colohan	OSTP
Closing Keynote VADM Michael Devany	DUS-O

We're grateful to have some wonderful keynote speakers with us this week. Use the Plenary Speaker buttons to view their bios and other information about their organizations.

Register of Attendees	Print All Materials	For Organizers Only

Who's here? What breakout sessions did they sign up for? Review the Workshop's register of attendees here.

Have a comment or suggestion to offer? Use the Workshop's online comment box.

To review these Workshop Logistics at any time, just click here.

Breakout session links, under the Day-by-Day buttons...

Day 1: Session Links for Tuesday 9/9

Data Access Services

1:30 PM, Roland Schweitzer, Auditorium

Collaborate

Listen In

Data Archiving & Citation

1:30 PM, Ken Casey, Science Ctr

Collaborate

Listen In

The breakout session name links to a Session Profile, with a summary of each session, speaker list, session objectives and a summary agenda.

Link to the Collaboration doc for each session. View the notes as they appear in real-time, contribute to them yourself, or ask question.

Jump quickly to Listen-in codes specific to that session.

A note about SSMC-2

- The capacity of sessions held in the NOAA Auditorium and Science Center are not greatly constrained.
- However, the capacity of breakout sessions being held in Building 2 (SSMC-2) is constrained by space, and are currently full.
- Your name badge has your sessions printed on it. If you were not able to sign up for a breakout session in Building 2, please limit your attendance to the breakout options being offered in the NOAA Auditorium and Science Center, so that those who are signed up for a full breakout session will be able to attend it. ***Thank you!***

AM Coffee Break on Tuesday and Thursday

There will be an AM Coffee Break on **Tuesday** and **Thursday** mornings.

Please, do not bring food or beverage in the Auditorium.

Your Coffee Breaks are sponsored by our friends at The Foundation for Earth Science. **Thank you!**
